### **CONVERSATION and VOCABULARY**

**Aim:** Conversation is the most powerful and effective tool for bringing about change and it is an essential life skill. English has attained the status of the 'Global Language.' We aim to foster this skill in the non-native speakers of English at an early stage. We aim to boost the word power of the children. This will improve students' speaking, listening and fluency in English. This will enable students to improve their understanding of word usage and learn context-based application.
